About Me

I take ideas from 0 to 1, turning early concepts into brands, digital experiences, and content people connect with. From designing websites and building brand identities to producing films, I enjoy taking ownership of a project from the first idea to the final result. I work across design, technology, and storytelling to solve problems and bring ideas to life.

Software

- Adobe Suite
- Figma
- Claude
- Codex
- Antigravity
- ElevenLabs
- Runway

Skills

- UI/UX Design
- Brand Identity
- Visual Design
- Filmmaking/AI

Work Experience

Frelo | Creative Designer **Nov 25 – Present**

- Helped grow Frelo's community to 100+ members through website design and brand visuals.
- Conducted 4 offline events with 20–30+ attendees each, handling design and video production from idea to final delivery.
- Create 4 videos and 4 carousels every month (90+ posts so far), keeping the brand consistent across Instagram, LinkedIn, and YouTube.

Frelo | Creative Intern **Sep 25 – Oct 25**

AiVANTA | Creative Design Intern **Dec 24 – May 25**

- Created an AI-powered short film from first concept to final edit, reaching 10,000+ views on Instagram.
- Used Runway, Midjourney, Kling, LumaLabs, and ElevenLabs to explore new ways of producing visual content.

Lit Lamps | Design Intern **Jul 24 – Dec 24**

- Created product visuals to help present products clearly and support marketing efforts.
- Assisted in producing the company's promotional video to strengthen its visual communication.
