## About Me

Dhruv designs digital experiences, creates visual stories, and collects hobbies faster than he finishes personal projects. Somehow, that's worked out pretty well so far. One day he's designing an app. The next he's shooting a film, building a brand, or editing a video. He stopped trying to explain it. He just calls it making things.

## Software

- Adobe Suite
- Figma
- Claude
- Elevenlabs
- Runway

## Skills

- UI/UX Design
- Brand Identity
- Visual Design
- Filmmaking/AI

## Education
